ONE INC

Conformance™

Strategic Partnership
Simplifying Your PCI Burden

PCI Expertise

Every business that accepts credit cards is required to be compliant with PCI DSS (Payment Card Industry Data Security Standard). Obtaining and maintaining PCI compliance on your own involves expensive audits, extensive resource investment, and potentially significant updates to your network. We help you remove payment card data from your network and simplify maintaining compliance, allowing you to focus more time and resources on growing your business.

In addition to removing card data functions from your network, One Inc has partnered with Conformance to create a Customer PCI Program that:
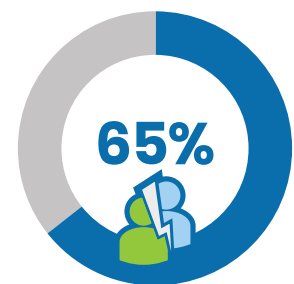

✓ Reduces the time and resources required to complete the PCI Self-Assessment Questionnaire (SAQ).

✓ Provides expertise, services, and equipment replacement in the event of a data incident.

✓ Protects your organization with breach insurance.

49%

Percentage of insurers who discovered "significant" cybersecurity incidents within their organization

$148

The average cost per lost or stolen record in the event of a data breach

65%

Percentage of consumers who said they lost trust in breached organizations

One Inc has partnered with **Conformance Technologies** to provide the following services:

PCI Toolkit®

The PCI Toolkit® is designed to make it easier and faster for you to maintain compliance, eliminating the need for you to decipher pages of security requirements.

1 Set up an account with your Merchant Identification Number.

2 Answer a series of non-technical questions to determine which SAQ applies to our organization (10-15 minutes).

3 Follow the guided set of simplified questions, which completes your SAQ.

4 Once you have attested, you'll have access to the completed SAQ and certificate of compliance.

By using One Inc, you may be eligible for the **easiest possible SAQ.**

Data Incident Management Program™

The Data Incident Management Program provides you with expert assistance in the event of a data incident.

Data Incident Forensic Services — Full forensic investigation, review, and incident reporting.

EMV POS Equipment Services — Up to $1,500 of EMV-compatible POS equipment or software replacement.

Legal Services — Up to $10,000 in legal services.

Consumer Notification Services — Notification preparation and distribution to affected customers.

Data Incident Notification Services — Legal service to determine if and when a data compromise incident should be reported.

Data Incident Public Relations Management — Internal and external messaging from a national caliber PR firm.

Breach Insurance

Your payment card data has been tokenized and outsourced through One Inc, so there is no sensitive information to steal in the event of a data breach. However, if one does occur, you'll still need to pay for a post-breach audit to verify your network is clean. We provide you with $100,000 of insurance protection to cover these potential costs, helping your organization get back on track quickly.

Compliance is Smart and Required

Keeping your customer's information safe is smart for your business, required by the card brands, and in some cases, state law. We provide you the expertise to simplify the necessary time, money, and resources. Let us help you make PCI compliance easy!
